We also have several legal advisors on staff. The school is government-supported and is affiliated with numerous schools throughout the city. Students from Canada, Italy, France, Korea, Japan, Indonesia, and the United States have successfully completed courses at our school and studied at our summer and winter camps.
- 2. Our Facilities:** The Yanjing Professional Culture School's motto is "You need it? We got it. You'll use it? We'll teach it." This is why we use the facilities of, and are affiliated with, Beijing's best known middle and high schools. These schools have long histories and solid records, and offer the most up-to-date accommodations. Most of these schools are located in the heart of Beijing and feature air conditioned buildings, computers, overhead projectors, and other modern equipment. Classrooms with multi-media capabilities, computer labs with Internet access, and biology labs with display rooms also are available. In terms of recreational facilities, an indoor pool and a gym with a basketball court and other amenities are also accessible.

Living Conditions: Two people can be accommodated in each room. Rooms have air conditioning, telephones, televisions, bathrooms, and hot showers.

Dining Services: The cafeteria serves nutritious and balanced meals. The menus change weekly. Students serve themselves. During field trips, meals are served at designated restaurants, where students get a chance to taste the local cuisine.
